

Offices for RHIC SPIN Group Version III

This is a small summary of our walk through and the change we agreed to do with PHENIX:

General Remarks:

- it would be very nice to have the printer below the mail box.
- we would like to have filing cabinets below the mail box.
- tables can be moved around in the single occupancy offices to accommodate wishes of people
- if people would like to keep the old furniture, they can and we can move some of our nice new office chairs or furniture to the rooms

Changes to the offices:

- we have rooms 2-190 to 2-197, and 2-235 to 2-231.
 - to allow PHENIX to have offices next to their labs, we exchange room 2-212 to 2-204 with 2-191, 2-190 and 2-235 to 2-231
- the following rooms will be the double occupancy offices:
 - 2-234, 2-193, 2-194, 2-192
 - room 2-195 becomes Elke's office rearrangement plan is attached
- we have lab 1-213 which has 20 feet x 22 feet

Concerns: none

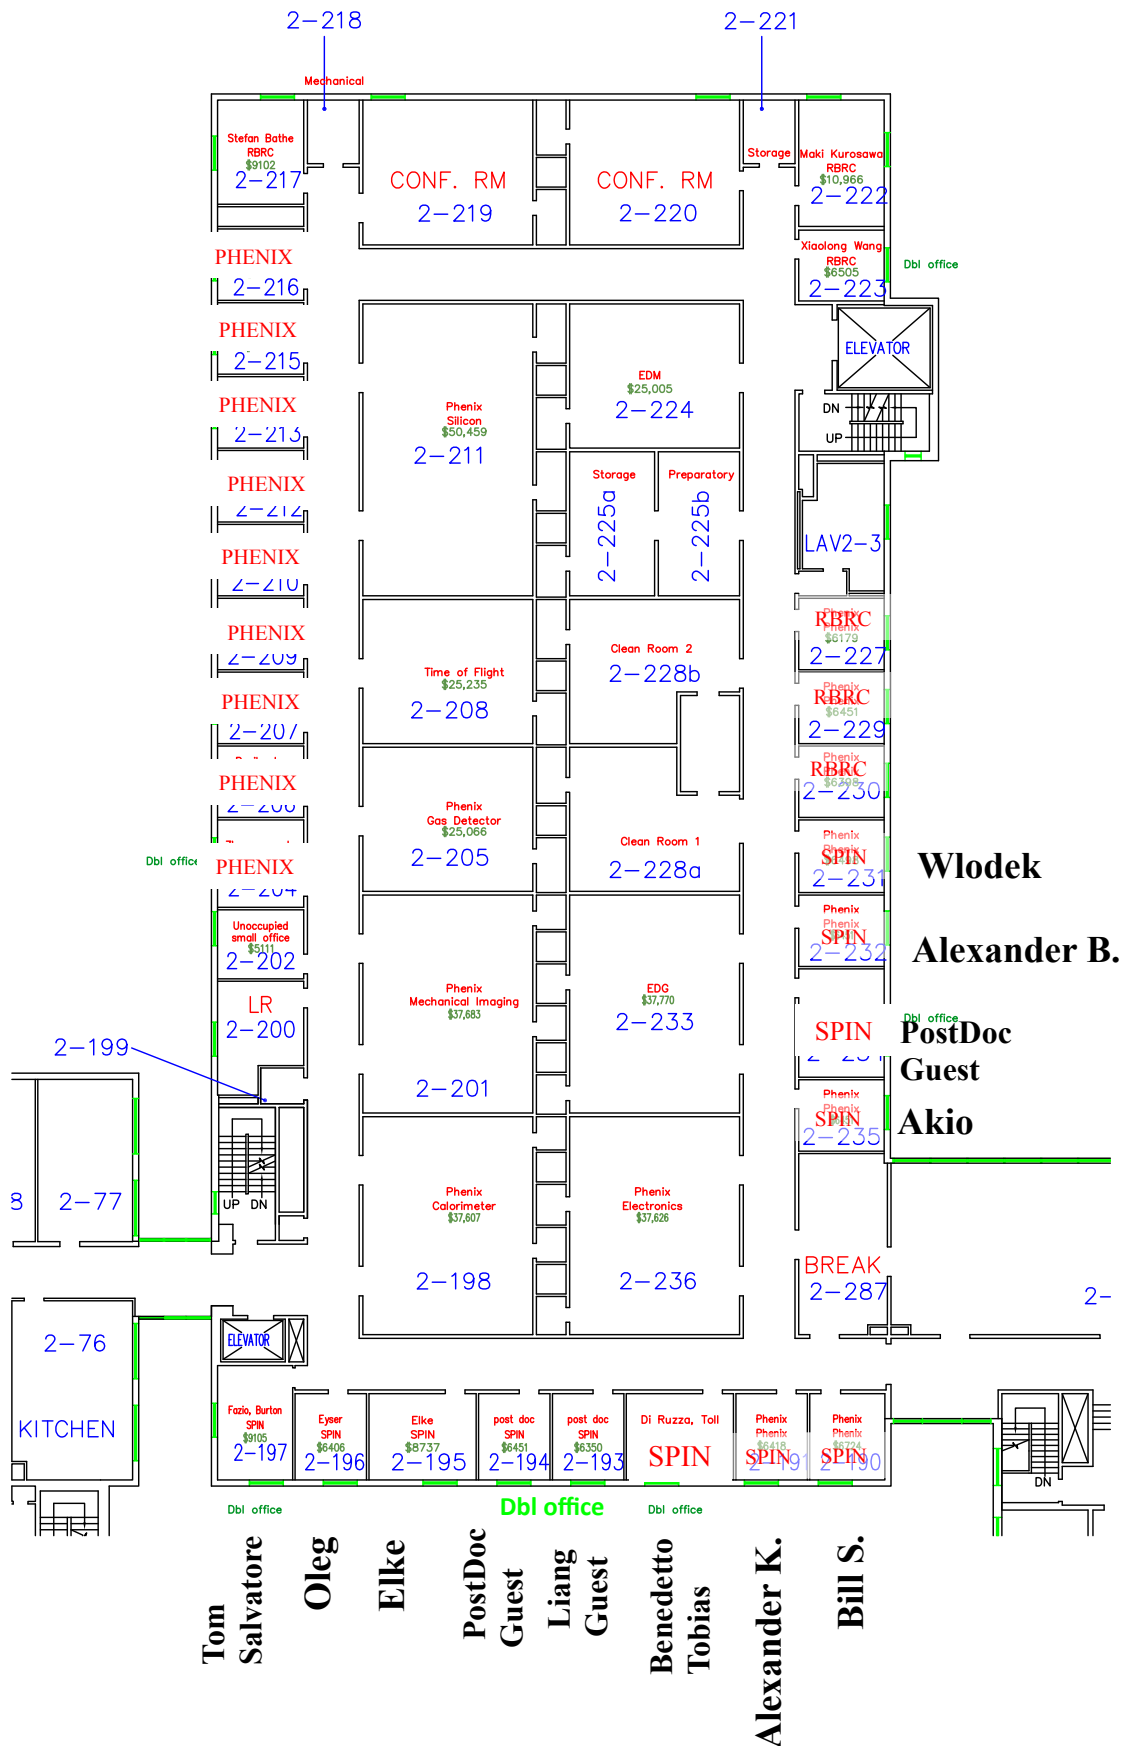

Advantages: gives room to grow and accommodate high level visitors for EIC

Elke's office will be big enough to have small meetings

PHENIX has offices opposite to their labs

→ everybody happy
